Housekeeping

We are committed to offer best housekeeping services. Our valuable housekeeping program is designed in such a manner, that it fulfils the requirements and needs of our clients.

We offer housekeeping services for:

- 🌸 Hospitals
- 🌸 Corporates
- 🌸 School/ Colleges
- 🌸 Housing Societies
- 🌸 Commercial properties like mall
- 🌸 Individual Home care

Housekeeping to the Hospitals

- 🌿 **Ward Housekeeping**
- 🌿 **Cleaning of Patient rooms and wards.**
- 🌿 **Housekeeping in ICU.**
- 🌿 **Operation Theatre Cleaning.**
- 🌿 **Segregation and Disposal of Waste.**

Ward Housekeeping

- 🌸 Ward housekeepers ensure the ward is clean and welcoming. They attend to patients' non-clinical needs, providing more time for nursing staff to do the job for which they were trained.
- 🌸 They provide extra touches which can make a patient's stay in hospital less stressful. Ward housekeeping services are flexible and can be introduced in acute wards, mental health facilities, A&E departments, day surgeries and clinics.
- 🌸 There are times when there are little things that patient would like or want to know about, which does not relate to clinical care. The ward housekeeper is there to ensure that needs are met. If patient needs help to fill menu card, the ward housekeeper can help. Ward housekeeper will find fresh water for the flowers, and take care of visitors.

Cleaning of Patient rooms and wards

- ✿ Waste collection and disposal on daily basis in the morning and after lunch time. Dusting and sweeping before doctor's rounds. Toilet cleaning and antiseptic moping after doctor's rounds.
- ✿ Cobweb removal, cleaning of fan and light fittings on discharge of patient and as and when required.
- ✿ Dusting and application of disinfectant on furniture, windows and telephones daily morning.
- ✿ Additional cleaning as and when required. E.g. vomiting on the floor or elsewhere, blood and body fluid splashes.

Housekeeping in ICU

- 🌸 Ensure cleanliness to prevent infection and improve Aesthetics sense
- 🌸 The assigned housekeeping staff works in the respective area under the supervision of the nurse, but directly reporting to the housekeeping supervisor.
- 🌸 Dry dusting of the patient unit, all furniture, equipment's and floor.
- 🌸 Wet moping is done with soap and water on daily basis.
- 🌸 Antiseptic cleaning is done as per the direction of the head Nurse.
- 🌸 Toilets to be cleaned twice a day with antiseptic lotion.
- 🌸 Additional cleaning as and when required.

House Keeping For Operation Theatre

- 🌸 Daily cleaning of Operation theatre.
- 🌸 Before starting the operation list, First Cleaning with liquid soap and second cleaning with Bacillocide special 2% that is 20ml in one liter water.
- 🌸 In between cases - cleaning with Bacillocide special 0.5%.
- 🌸 In case of blood spillage on the floor – cleaning with 1% Sodium Hypo Chlorite for 5 minutes and mopping with separate mop stick.
- 🌸 End of the list first cleaning with soap and water, Second cleaning with Bacillocide special 2%.

Weekly Cleaning Of Operation Theatre.

- 🌿 Deep cleaning of operation theatre with liquid soap and Bacillocide special 2% once in a week.
- 🌿 Fumigation of OT with formalin using OT care machine 37% formaldehyde 280ml / 1000 cubic feet.

Segregation & Disposal Of Waste

Final Disposal

- 🌿 Non infective waste (collected in black bags) are disposed in a landfill.
- 🌿 Infected solid waste and human anatomical waste (contents of yellow bags) are incinerated.
- 🌿 Infected plastic (collected in pink bag) are disinfected and shred. Plastics cannot be incinerated, as they produce dioxins when burnt, which is known to be carcinogenic.
- 🌿 Sharps and non-recyclable material to be mutilated by using heat.

Our Responsibility

- 🌸 Training for Health care staff on hand hygiene.
- 🌸 Beds disinfectant by proper hospital diluted chemicals.
- 🌸 Fumigation of high risk Areas with proper hospitals chemicals.
- 🌸 Keeping surface bacteria free by using proper disinfectant.
- 🌸 Cleaning of patient utensils i.e. bedpan, urine pot, kidney tray, sputum mug etc.
- 🌸 Cleaning of patient from one department to another.
- 🌸 Assist nursing staff with sponging of patient & patient care.
- 🌸 Shifting patient from bed to stretcher or stretcher to bed by using appropriate instrument.
- 🌸 Giving bedpans, urine pots as when required.
- 🌸 Emptying urine bags in measuring jar & disposing the same in commode.
- 🌸 Emptying suction jar & disinfecting with the proper hospital disinfectant.
- 🌸 Handling patient by proper hand gloves & disposal masks.

Why Hospital Accreditation: ?

- As implementation of accreditation standards ensures Patient safety, commitment to quality care resulting in good clinical outcomes.
- Improves patient satisfaction and increases community confidence as services are provided by credentialed medical staff.
- Accreditation status provides good marketing advantage in the competitive healthcare.
- The HCO standards has been accredited by ISQua giving the accreditation an international recognition which will boost medical tourism
- The HCO standards has been accredited by ISQua giving the accreditation an international recognition which will boost medical tourism
